Bathing Suits

For Women and Children.

Women have grown sensitive on the bathing suit question. They used to rent-25c a swim-not caring who wore the suit before; but you don't find a fine looking woman to-day risking her laurels that way. The bathing suit must be as becoming as the evening gown. We have all kinds. One prettier than another.

In silk, mohair, serge and flaunel—black, blue and red. Most people like mohair, which sheds the water and is the most comfortable and practical of all-unless you go in for silk, which is luxury

WORK NEARLY COMPLETED

EXTENSION OF GAS MAINS TO WOODMONT.

Expected to be Ready for Use on the Glorious Fourth-Shore Residents

main will be completed in about a week and that there will then be an opportuty to dispense with the old-fashioned neans of heating their cottages and preparing their meals.

Major Blakeslee was on Saturday last found by a Courier representative very busily engaged in superintending the work in connection with the laying of the mains. For about two months he the mains. For about two months he Her husband was for many years presi-and his able assistants, together with a dent of the B'nai Scholom congregation force of about one hundred Italian laorers, have been giving their energies to this work, which, when completed, will furnish heat and light to many homes. Over four miles of excavation have been necessary that the connec tion might be made, and the ground through which they have had to pass has not been of the best. In some places, particularly near the Colonial nn, hard rock very similar to bed rock is encountered, so that an exceptionlly large amount of drilling and blastng became necessary. This has all en competed and the work of filling in the loose earth now alone remains. From a point near Waverly Grove up Cox's Surf houses for a distance of ver three thousand feet it was necesary, on account of the exceedingly soft, marshy ground, to drive a large umber of heavy piles. Then large, savy crosspieces and planks were laid lown and this formed a sultable founorthward of Savin Rock Hill. Only a pected to finish this stretch probably by he Glorious Fourth.

All of the pipes have been laid along the side of the road and the trenches arefully filled, so that there will be no inger to horses walking on the new earth, and no unsightly places should the ground sink in from the action of the elements. Along the marshes the trenches were dug just outside the roadway, outside the railings.

Up to this time there was a small nain which furnished the supply for the residents of West Haven from Ward's Corner southward. The laying of the new extension has made it practicable to lay much larger pipes and incidentally increase the supply. Now there is an eighteen-inch pipe through the thickly settled part of the town, commencing at Ward's Corner and extending about a mile. From that point clear into Woodmont a twelve-inch onin has been daid. This will insuran abundant supply of gas at all times nd for any number of cottages.

The Gas company has been exceed ngly busy for several weeks past supplying the wants of many Woodmont stagers, who will take immediate advantage of the new supply. A large number of stoves and attachments have en sent to the shore cottages and gas pipes put in, and there are many orders yet to be filled. It is thus seen that the ople along the shore appreciate the advantage of this service, and that the ompany will reap immediate benefit. In time the return will be quite remu-

ponsible positions by Major Blakeslee is Inspector Cox, who, although seven--four years of age, is one of the best eserved men of his age in the country. He is a very vigorous and extremely active man for his years. He was with the New Haven Gas company for twenty-five or thirty years as its superintendent. His brother, who is one of the Gas company's foremen, has been in the company's employ for thirty-five forty years, excepting the time-four cears-he served his country in the

work on their \$750,000 contract for changing the tracks of the Consolidated road at Fall River, Mass., next week. The work will consume several months.

The Blakeslees expect to commence
